

HEProAI Activity 4: Final Recommendation Table

Systematic Matching of Students to Interventions

Harini Muthurengan

February 2026

1 Summary of Mentorship Assignments

The system has processed 60 student profiles, mapping their Machine Learning clusters to specific human expertise.

Cluster Profile	Risk Level	Matched Mentor	Primary Need	Intervention Strategy
Cluster 0: Career Lost	Medium	Coach Kevin	Career	Resume & Internship Mapping
Cluster 1: Burnout	Critical	Counselor Sarah	Wellness	Immediate Stress Mitigation
Cluster 2: At-Risk	High	Dr. Aris	Academic	Intensive Remedial Support
Cluster 3: Power Worker	Low	Prof. Elena	Career	Leadership & Placement Prep

Table 1: Automated Mentoring Assignments based on Cluster Centroids

2 Priority Intervention Levels

- **Critical (Cluster 1):** High-achieving students showing severe wellness decline ($WWS \approx 34$). Requires 24-hour response.
- **High (Cluster 2):** Students struggling globally across all metrics. Requires weekly academic intervention.
- **Stable (Cluster 0/3):** Students performing well but requiring professional alignment and career roadmapping.
